## What We Do

### Emergency Aid

Emergency Surgery •  
Emergency Preparedness  
Supplies • Evacuation  
Assistance

### Medical Needs

Rehabilitation Therapy •  
Dental & Medical  
Checkups • Medical  
Tests • Medicine

### Loving Care

Caregivers • Special  
Care Packages

### Nutrition

Infant Formula • Toddler  
Formula • Specialized  
Formula • NGT Feeding  
Supplies • Baby Food

### Education

School Fees • School  
Supplies • Educational  
Materials

- We facilitate emergency surgeries and medical procedures for children when their hospital costs are not covered elsewhere, especially when these surgeries are urgent, life-saving, or life-transforming.
- We provide essential needs, such as diapers, wipes, and formula, to relieve poverty and preserve the good health of disabled, impoverished, and orphaned children.
- We advance children's education by offering sponsorship opportunities, educational materials and school supplies, and field support through our caseworkers and partners.
- We supply basic necessities to children in orphanages, hospitals, and families displaced due to war.

## Where We Bring Hope

*Ukraine and the Philippines. All from New York City!*

## Message from Maya

---

### Dear Friends and Supporters of Maya's Hope:

The past year was undeniably one of the most challenging in the history of Maya's Hope. It tested our resilience, resourcefulness, and determination in ways we could have never imagined. But through it all, we found moments of hope, miracles, and inspiration.

The full-scale war in Ukraine, which began on February 24, 2022, took a toll on our organization like never before. It created an urgent and unprecedented need for our assistance, and our team and charity partners had to adapt swiftly to navigate this new, complex environment. It was a heavy year as we witnessed the suffering of innocent children and families amid war. But it was also a year of growth, compassion, and profound impact.

In 2022, Maya's Hope reached a milestone, achieving the largest impact in Ukraine in our organization's history. We provided aid to 10,888 children in Ukraine, offering them a lifeline during a time of crisis. We welcomed a new charity partner in Ukraine, expanding our reach and effectiveness in the western region. Thanks to the dedication of our team and the support of our donors, we were able to accomplish so much in the face of adversity.

I am thrilled to announce that 2022 also marked a special moment in the history of Maya's Hope as we welcomed our second official employee, Ollie Zhorniak, to our team. Ollie's been a volunteer at Maya's Hope since 2015. Her commitment and passion for our mission have been a tremendous asset in helping us achieve our goals this year.

While our efforts in Ukraine were at the forefront, we did not lose sight of our mission in the Philippines. In 2022, we facilitated 13 life-changing surgeries, bringing hope and transformation to the lives of children in need. Additionally, we provided essential support to over 134 children with disabilities, ensuring that basic needs were met for those struggling in challenging circumstances.

It was an incredibly busy year, filled with moments of fear and hope, darkness, and a resilient spirit. Like sunflowers growing in Ukraine, we needed just a little light and hope to grow, bloom, and brighten our path toward a better future. The challenges of 2022 have reinforced our commitment to our mission, and we are more determined than ever to make a lasting impact on the lives of the children we serve.

As we move forward into the new year, I want to express my deepest gratitude to each and every one of you who supported Maya's Hope in 2022. Your generosity, dedication, and unwavering belief in our cause have been the driving force behind our accomplishments. We look to the future with optimism, knowing that, together, we can continue to change the lives of children in need.

Thank you for being a part of our journey.

Here's to brighter days ahead.

Hugs,  
Maya Crauderueff  
President and Founder

## Board of Directors

---

Maya's Hope is guided by a dedicated and passionate Board of Directors who play a pivotal role in steering our organization toward success. Our board members bring diverse backgrounds, expertise, and a shared commitment to our mission, ensuring we remain focused on the welfare of the children we serve. Each board member actively participates as a sponsor for a child in need, ensuring the fulfillment of their basic needs and education.

In 2022, our Board of Directors played a critical role in guiding Maya's Hope through the complexities of an ever-changing landscape. They offered strategic insights and provided the leadership necessary to fulfill our mission effectively. Their collective wisdom and support have been instrumental in our ability to adapt and grow in the face of new challenges.

### **Thank you to our dedicated Board Members!**

*Michael Meltzer, Chairman*

*Maya Crauderueff, President*

*Julia Maksimova, Vice President*

*David Cohen, Treasurer*

*Semanti Kulkarni, Secretary*

*Jacky Flood Soeda, Board Member*

*Ava Mehta, Board Member*

# *Why Help Children in Ukraine?*

In Ukraine, parents of children with special needs often face societal pressures to place their children into state care institutions. They are told their children will be a burden on society. Children are therefore sent to orphanages and institutions where they are often subjected to abuse and neglect. The limited assistance available to parents who fight to keep their children at home puts them in challenging situations. Maya's Hope aims to relieve some of the burden on these parents.

For over a decade, Maya's Hope has been actively engaged in Ukraine. Long preceding the onset of the war in eastern Ukraine in 2014, and its significant escalation in 2022, Maya's Hope has been steadfastly providing essential support to orphaned, impoverished, and special needs children. Our approach has evolved from solely supporting orphanages to a more comprehensive strategy that extends aid to families caring for children with disabilities. We also support foster homes, where children receive the affection and care they need. Our initiatives in Ukraine encompass a wide spectrum of support, including financial assistance, basic needs, and educational support for orphaned children and children with special needs.

As the war intensified across Ukraine, our commitment to the region grew even stronger. Maya's Hope ensured that the orphanages and families with special needs children had access to vital medicines, life-saving resources, and basic essentials. Our assistance extended across all key program areas – from water and food supplies to evacuation funds and rehabilitation therapies.

Maya's Hope continues to maintain its presence in Ukraine through a reliable network of charity partners. Presently, we collaborate with four charity partners in Ukraine who actively support our programs and initiatives.

# Maya's Hope Ukraine Emergency Fund

In the wake of the full-scale invasion of Ukraine and the unprecedented humanitarian crisis that resulted from it, we launched the Maya's Hope Ukraine Emergency Fund. It was our urgent response to the escalating war in Ukraine. This fund was born out of our deep concern for the children affected by the turmoil and our determination to provide them with immediate relief and assistance.

**It has been a heartbreaking year for children in Ukraine, but we have also experienced many successes and uplifting moments.**

## Hospitals

1,347 babies in hospitals were provided with necessary medications, nutrient formula, and baby bottles.

## Orphanages

Medications, sanitation products, and essential appliances were purchased for orphanages with 468 orphaned children in total.

## Food Vouchers

The families of 4,398 children were provided with food vouchers.

## Essential Needs

2,887 children were helped with organic baby food, formula, diapers, wipes and other essential needs.

## Financial Aid

The families of 1,704 children received direct financial assistance.

## Medical Assistance

84 children received necessary medical assistance, outpatient treatment, and rehabilitation therapy.

**Through Maya's Hope Ukraine Emergency Fund, we helped 10,888 children in Ukraine!**

# *Story of Orest: A Journey of Hope Amidst War*

It was the early days of March 2022, about a week after the full-scale war erupted in Ukraine. Our team, both in the USA and Ukraine, rallied together to locate all the children in our program, ensuring their well-being and extending a helping hand. We finally reached Alina, Orest's mother. She shared a few photos of herself, Orest, and his baby brother huddled in their makeshift "bomb shelter" – a cellar usually reserved for pickles, preserves, and winter supplies. They were wrapped in multiple layers of clothing and wrapped in blankets. It's freezing outside and not much warmer in their cellar. Imagine the heart-wrenching reality of trying to stay warm while every sound outside sent shivers down their spines. The roaring planes overhead, the piercing air raid sirens – it was twice as hard to endure.

Orest has a severe form of cerebral palsy and epilepsy, relying on a nasogastric tube (NGT) for feeding. In these dire circumstances, Orest's health took a sharp decline, causing him to lose weight rapidly. Desperate for help, the family received a lifeline from local volunteers, who arranged for them to escape to the Netherlands.

It was there that Orest received the crucial medical treatment he needed. The doctors recommended Infusomat, a medical device intended for the continuous delivery of fluids and medications. It not only helped Orest regain his lost weight but, more importantly, helped him feel better.

With newfound hope, Orest, his baby brother, and their mother eventually returned to Ukraine. And Maya's Hope remained by their side, providing Orest with the food and supplies necessary for the Infusomat.

Orest's story is just one among many; countless families have had to leave their homes in search of safety and medical care. And many have faced the difficult choice of returning home due to the lack of support and resources abroad. In these trying times, Maya's Hope is here to continue to provide hope and support to families like Orest's, proving that even in the darkest hours, there are brighter days ahead.

## *A Note From Rafael*

As the war began, we encountered a significant influx of people who sought refuge. The city of Zaporizhzhia positioned right above the front lines became a hub for those fleeing the occupation and active war zones. Thanks to the support of compassionate organizations and individuals worldwide, numerous families managed to travel further west, escaping the bombings and violence in western Ukraine. Yet, many families stayed in Zaporizhzhia, hoping for a swift end to the war and the opportunity to return to their homes.

In the early months of the war, there was a shortage of food supplies. It was quite difficult and time-consuming to make a large wholesale order and create ready-made food packages. So, we came up with a different way to help. We used food vouchers from one of the biggest stores in Ukraine. These vouchers allowed us to quickly assist many families with children to purchase essentials, including food, hygiene and cleaning supplies, household items, etc. This alternative approach addressed the most pressing needs during these tumultuous times.

**The families of 4,398 children were provided with food vouchers.**

## *Message from the charity partners in Western Ukraine*

Thanks to your tremendous support this year, we were able to help nearly a thousand children facing extremely challenging circumstances and hardships of war. Because of your exceptional care, orphaned children, children with HIV, newborn babies, and ailing children undergoing treatment in the children's hospital received essential assistance.

**In 2022, with your generous support, the following aid actions were carried out:**

- We provided formula and baby bottles for feeding 102 babies with HIV infections who couldn't consume their mother's breast milk.
- We supplied formula and baby bottles for feeding 170 newborns in the maternity hospital, mainly children of displaced women who, due to the stress and horrors of war, lost the ability to breastfeed their babies.
- We delivered cleaning supplies to a children's orphanage where 150 orphans reside, helping to maintain the premises' sanitary and hygienic conditions.
- Appliances such as refrigerators, washing machines, drying machines, ovens, and roasters were purchased for the orphanage.
- We provided food supplies for the winter to 150 children and 120 staff members of the orphanage.
- Orphaned children received warm blankets to keep them comfortable in bomb shelters.
- We supplied nutritious baby food and vitamin-rich formula to 450 children treated for various illnesses at the Children's Polyclinic.

We are grateful to everyone who made this possible. Our words of gratitude are echoed by the voices of all children to whom you extended a helping hand during the most difficult times for them.

*Fr. Pavlo, Director  
Anastasia, Program Manager*

# Supporting Orphanages and Family Homes in Ukraine During War

In 2022, Maya's Hope faced unprecedented challenges in supporting orphanages in Ukraine due to war. It had severe repercussions for the children in many institutions, especially those located in areas at the front line of the war in eastern Ukraine. As a result of the ongoing hostilities, children from these institutions were forced to evacuate to safer locations, including a dozen institutions within the European Union.

Maya's Hope continued to support orphaned children who remained in the country, particularly in Western Ukraine. Our focus remained on providing essential aid and support to those children who continued to face hardships and uncertainties due to the escalating conflict. Due to the war, numerous children residing in institutions were forced to seek shelter in basements amid bombardments, facing dire conditions without access to electricity or running water.

**In 2022, Maya's Hope helped 468 orphans in Ukraine's orphanages.**

We provided critical resources, including medication, cleaning supplies, non-perishable food, warm blankets, and essential appliances, ensuring the well-being of these children. Our efforts aimed to create a nurturing environment and improve their living conditions. We collaborated closely with local partners and institutions in Western Ukraine to identify the most pressing needs and ensure that the support provided was tailored to meet the specific requirements of the children.

## **Cleaning Supplies**

This initiative focused on providing essential cleaning supplies to maintain cleanliness, sanitation, and overall well-being within the orphanage premises.

## **Appliances**

This project aimed to enhance the living conditions of 150 children residing in the orphanage by providing essential appliances, including electric ranges, fridges, washer and dryer, and other necessary equipment.

## **Blankets and Food**

As the children in the orphanage faced the approaching winter in a war-torn country, we provided warm blankets and non-perishable food supplies to address the challenges posed by harsh weather conditions and frequent power outages.

## **Caregivers**

Maya's Hope funded caregivers for 18 children with disabilities living in a family-type children's home. This project aimed to provide these vulnerable children with specialized care, attention, and support tailored to their unique needs.

# *Why Help Children in the Philippines?*

Growing up in poverty is a circumstance beyond any child's control. A core part of our mission is to extend our support to the children in the Philippines living in conditions of extreme impoverishment, ensuring that they gain access to healthcare, quality education, and life-transforming opportunities.

Among these children, those with special needs are often the most marginalized. Their unique needs can be financially demanding, and available resources are insufficient. That's where Maya's Hope steps in.

We are dedicated to providing unwavering support for children with disabilities, addressing their basic needs, such as diapers, wipes, medication, and hygiene supplies. Additionally, we work to secure access to critical medical resources, such as life-saving surgeries and essential physical therapy. We also play a pivotal role in broadening their educational horizons, offering children the opportunities they need to create a brighter future for themselves.

## Maya's Hope Successes in the Philippines in 2022:

- Facilitating 13 life-changing surgeries that have made a huge impact on the lives of children.
- Supporting 21 students in their pursuit of a college education, opening doors to greater opportunities and a brighter future.
- Sponsoring 66 children, ensuring they receive the care and assistance necessary for their growth and development.
- Providing essential supplies to 67 children, improving their quality of life and well-being.

# *Providing Life-Changing Surgeries*

In 2022, in collaboration with our dedicated charity partners in the Philippines, Maya's Hope continued to make a profound impact on the lives of children in need. We are proud to report that we facilitated 13 life-changing surgeries for children under 7 years old.

The surgeries addressed a variety of medical conditions – five cases of hydrocephalus, four cases of spina bifida, two cases of imperforate anus, one case of hand malformation, and one case of lymphangioma.

Thanks to the unwavering of Maya's Hope supporters and partners, we were able to continue our life-changing work, transforming the lives of children through essential medical interventions

**Each surgery not only offered a chance for physical healing but also renewed hope for a more fulfilling and joyful life.**

## *Jania's Journey: Resilience, Hope, and Gratitude*

Jania has congenital hydrocephalus. This is a condition characterized by an excess buildup of cerebrospinal fluid in the brain from birth. This surplus fluid can exert dangerous pressure on a baby's brain, potentially leading to permanent damage and various physical and cognitive challenges.

In 2021, Maya's Hope stepped in to fund a critical shunt surgery for Jania. Shunt procedures redirect excess fluid to other parts of the body, often the belly or the heart, where it can be safely absorbed. However, Jania's story took a heartbreaking turn as her father abandoned her during her time in the hospital, while she was undergoing her life-changing surgery. Jania's mother was getting her income from selling vegetables and struggling to provide for her four children.

Hopes were high that the surgery would lead to a reduction in Jania's head circumference, a positive sign of improvement. Yet, despite a healing wound, her head continued to enlarge, raising concerns among the medical team. The doctor's verdict was clear: there was a complication with the shunt, and an urgent replacement was necessary.

To compound the challenges, Jania began experiencing seizures, further complicating her condition. Her eyes also showed signs of distress due to the mounting pressure and fluid buildup. In the face of these adversities, Jania's mother, Grace, turned to Maya's Hope again, pleading for help. She wrote us, "Jania's only hope is Maya's Hope."

“  
Jania's mother, Grace, turned to Maya's Hope, pleading for help. She wrote us, "**Jania's only hope is Maya's Hope.**"  
”

In January 2022, Jania underwent a successful shunt repositioning surgery. Maya's Hope continued its support, providing essential supplies and medications until the family could regain their self-sufficiency.

## *From Despair to Hope: The Story of Adalyn*

Angelika is a devoted and loving mother to her precious daughter, Adalyn. What should have been the happiest day of her life turned into a heart-wrenching moment as Angelika received a shattering diagnosis. Her newborn, precious Adalyn, baby Ada, arrived in this world with a soft, oversized head and a massive lump on her back, signs of Spina Bifida and Hydrocephalus.

No mother should have to face such a formidable challenge alone. It was in this dire moment that Angelika found help from Maya's Hope. The urgency of Ada's condition left no room for delay. The delicate surgeries aimed to drain the excess brain fluid, alleviating pressure and the associated symptoms, while also closing the surrounding skin and tissue. Through the generosity and compassion of Maya's Hope donors, the funds needed to save Ada's life were raised.

It was a devastating moment that left her grappling with the uncertainty of her child's future and the financial burden of necessary treatments. The medical procedures that could offer Adalyn a chance at a healthy life were a distant dream for Angelika. Her income as a manicurist barely covered the necessities like diapers and formula, leaving her in a state of financial despair. Securing the necessary funds for Ada's surgeries seemed impossible.

**No mother should have to face such a formidable challenge alone. It was in this dire moment that Angelika found help from Maya's Hope.**

The surgery was a success, and the transformation was remarkable. She began to thrive, growing into a curious and joyful child, eager to explore the world around her.

For Angelika, the support she received was a lifeline. Her boundless love for Ada, combined with the help she received, has ensured a brighter future for her precious daughter. Maya's Hope continues to stand by their side, ensuring that Adalyn receives the ongoing support she needs.

## *Bullied No More: Zavria's Path to a Brighter Future*

Zavria was easy to remember. The girl had a huge cyst - lymphangioma - protruding from the left side of her neck.

While this growth was non-cancerous, its impact on her life has been profound. Zavria not only contended with the physical discomfort but also endured the cruel taunts and bullying of her peers. In a heartfelt plea, her mother reached out to Maya's Hope, seeking assistance to remove the burdensome lump.

Lymphangiomas, noncancerous fluid-filled cysts that often afflict children, tend to form on the head and neck.

**Zavria experienced a profound change in her overall well-being, transforming from a mere state of comfort into a life filled with hope and opportunity.**

Initially, medical advice pointed toward sclerotherapy, considered the least invasive procedure. Thanks to generous support from Maya's Hope and its compassionate donors, the funds required for the treatment were successfully raised. The procedure took place on August 5th, 2022, and the initial outcome appeared promising. Unfortunately, the cyst exhibited renewed growth about a month later, dashing hopes for a swift resolution. With sclerotherapy no longer a viable option, the medical team concluded that surgery was the sole remaining path.

In Zavria's case, the cyst had grown to a considerable size, further impeding her ability to lead a normal life.

This little girl experienced a profound change in her well-being – relieved from her physical discomfort and also from relentless bullying. As she continues to grow and thrive, she regularly conveys her heartfelt best wishes to Maya's Hope and its dedicated supporters who have illuminated her path to a brighter future.

# Lotus Ball

12th Annual Gala  
The Players | New York City | November 16, 2022

Gala Chairs Gina Tega & Michael Meltzer

Top Host Diana Guo

Maya Crauderueff with  
Philippe and Stephanie Dauman

The Maya's Hope Lotus Ball was held at the Players Club in Gramercy Park.

We were delighted to welcome our special guests, the Gillis family, who adopted Ayvanna from Ukraine a few weeks before the war began. Before then, Ayvanna was in the orphanage that had caregivers funded by Maya's Hope.

**Thanks to our donors and sponsors, our Gala raised over \$180,000.00!**

**We appreciate all of our amazing donors!**

**We couldn't do it without you!**

*The 2022 Donors generously donated to Maya's Hope from January 1 - December 31, 2022. Every donor is valuable to Maya's Hope. We apologize if we have omitted any name from this list.*

### *Maya's Hope Welcomes a New Full-Time Team Member*

My journey with Maya's Hope began in the summer of 2015 when I came across a volunteer translator opportunity on LinkedIn. I applied, completed the test assignment, and was warmly welcomed on board. Receiving letters from the orphanages for translation was always a source of excitement for me. I invested a great deal of time in searching for just the right words to convey the messages as clearly as possible. I took a temporary step back from my duties when I gave birth to my oldest son, but as soon as I was in good shape, I resumed my role as a translator.

My willingness to contribute always extended beyond translation, but the remote work environment limited my ability to take on more tasks. The world changed with the onset of COVID, not just on a global scale but also in my personal life. Zoom became a part of our daily routine, enabling video calls and real-time communication that made distance seem irrelevant. So, I began assisting in various capacities, such as conducting interviews with humanitarian assistance applicants, establishing systems and organizing workflow, creating fundraising write-ups, and assisting with digital materials for the gala, among other tasks.

In the spring of 2022, when the war in Ukraine broke out, I found myself dedicating up to 20 hours a week to volunteering, in addition to holding one full-time and one part-time job. It was during this time that Maya broached the idea of me joining the team as an employee. Initially hesitant, I eventually accepted the offer. It turned out to be one of the best decisions I've ever made. If someone had told me in 2015 that I would be working for the organization I initially volunteered with, I wouldn't have believed it. Through moving across three states and having two children, Maya's Hope has remained a constant presence in my life. And I dare to hope it will continue to be so in the future.

Ollie Zhorniak

# Meet Taylor!

*How did you first become involved with Maya's Hope? What motivated you to volunteer?*

During COVID, I was looking for a way I could give back to the world in a digital environment. I found Maya's Hope online, and it strongly resonated with me. Once I volunteered and witnessed the vital help Maya's Hope provides to its beneficiaries, I couldn't imagine not helping however I could.

*Could you share a specific experience or moment during your time volunteering with Maya's Hope that has had a lasting impact on you?*

There are too many moments. But having been with the organization since 2021, I have been able to see the lasting impact Maya's Hope has, enabling children to thrive in circumstances where they would otherwise struggle to exist.

*In your opinion, what makes Maya's Hope stand out as an organization, and why would you encourage others to support its work?*

It's the organization's focus on special needs children in dire need, as well as the commitment of every team member and volunteer to the mission. The team always works together to ensure that applicants are well served and that the funds generously provided by donors are used effectively to improve the lives of these children.

*What role or roles have you taken on as a volunteer, and how have they contributed to the organization's mission?*

Since joining, I've worked as a Project Manager and Interviewer. My role involves making sure that all applications are received and processed through the interview process, ensuring that the applicants receive their life-saving supplies and assistance promptly.

*In what ways have you seen Maya's Hope make a positive difference in the lives of the children and communities it supports?*

Many children would not be able to have access to the food and medicine they need for maintaining their health and preventing frequent illnesses. Particularly children with epilepsy who need very expensive medications to keep from getting seizures. Without Maya's Hope, these children would not be able to have regular access to medications that keep their seizures at bay.

*What advice would you give to someone who is considering volunteering with Maya's Hope or getting involved in a similar cause?*

Do it. I think it is more important than ever for us to be involved in making a difference in the world around us. Given all that has happened over the past few years, we have the ability to be more connected than ever before, and we should use that to better the world around us.

*What have you learned from your experience as a volunteer with Maya's Hope, and how has it shaped your perspective or goals moving forward?*

It has given me a perspective that I couldn't have obtained by volunteering solely within the US. Observing how people in other parts of the world live serves as a daily reminder to be grateful for the opportunities I've had here.

## Maya's Hope Mission Ambassador

---

In 2022, the Maya's Hope Ambassador Program continued to be a beacon of hope, compassion, and unwavering support for disadvantaged children around the world. Our ambassadors, a dedicated group of individuals who share a deep commitment to our mission, played a vital role in championing the cause and expanding our reach. As advocates for the children we serve, they tirelessly raised awareness, organized fundraisers, and participated in volunteer activities, all with the singular goal of enhancing the lives of those in need.

We extend our deepest gratitude to our Ambassadors for their relentless efforts and unwavering belief in our mission. Their commitment is a testament to the positive change that can be achieved when hearts and hands come together for a greater purpose.

---

### *Ambassador Myra Gonzales*

Being a Maya's Hope Ambassador brings me the pleasure and honor of spreading the word about Maya's Hope, an organization that holds a special place in my heart. I believe that everyone deserves to live to see the beauty in the world, and Maya's Hope fulfills that belief by giving children a chance through facilitating life-saving surgeries and providing essential needs.

My journey with Maya's Hope began in 2020 when I started as a volunteer Tagalog translator, eventually progressing to become a committee member. The entire experience is incredibly rewarding, especially when we witness the children's progress and hear how our assistance alleviates the financial burdens on their families.

In 2022, I had the privilege of meeting some of the children during my trip to the Philippines. It was during this visit that I realized the magnitude of the help that Maya's Hope provided to the families and understood the positive changes it has brought to their lives. As I listened to each child's story and learned how Maya's Hope had supported them, I felt the depth of their gratitude toward the Maya's Hope team.

It is definitely something I will remember for the rest of my life. This whole experience motivates me to do more for these children, both as a dedicated member of the Maya's Hope team and as an ambassador.

Myra Gonzales

Myra with Adalyn and her mom
